USING FOM TO ACCESS SERVICES

Due to how the different groups utilize FOM, there isn't an overall investigator guide as some of the business processes can vary between facilities. However, as it relates to CCC cores, there are two go.osu.edu links that we provide to new users and have proven to be very helpful.

MSP/PSR

go.osu.edu/startusingmsp

Access guidance for using FOM with the Molecular and Cellular Imaging/Proteomics and Metabolomics Shared Resources.

CMIF/MSR

go.osu.edu/startusingcmif

Access guidance for using FOM with the Campus Microscopy and Imaging Facility/Microscopy Shared Resource.

If you have any questions or need additional assistance, please reach out to the eRAMP Admins.
